## **ATLS 5210: Global Development I**

This course is designed to introduce students to the complex and inter-related nature of global development, including understanding the major historical outcomes, theories, institutions, policies, critiques and themes in International and Community Development. The class will explore specialized themes including, Indigenous knowledge, Liberation theology and Conflict, alongside debating hot topics such as public/private partnerships, microfinance, and social entrepreneurship. The course will provide an opportunity to students to discuss and debate the ethics of global practice and to locate its politics.
