

User Experience Design

Spring 2019 | Instructor: Kevin Cook

An environment where students will learn leading edge User Experience Design methodologies as taught by an active industry professional. Students will be guided through the process of making a professional design portfolio, understanding contemporary design methodologies, and how to innovate when designing at scale.

Kevin began his career at Lego as a user interface artist and designer. In his 10 years in user experience (UX), he has worked in the fields of video games, e-commerce, SaaS and mobile device hardware. In addition to teaching at CU Boulder, Kevin is a full-time UX designer in Amazon's consumer electronics technology division in Denver.
