

MOBILE APP DEV: ADVANCED TOPICS

ATLS 4320/5320

T TH 11-12:50

Explore advanced native mobile app development!

The design and development process will focus on apps with different view architectures. Students will also explore data relationships, flow, and storage, both on the client and server.

Instructor: Aileen Pierce apierce@colorado.edu

Pre-requisites: ATLS 4120/5120 or instructor approval

This course is a TAM focus elective
