

Design Studio

Spring 2019 | Instructor: Joel Swanson

In this seminar we will be working with Justin Gitlin (cacheflowe.com) to produce a series of interactive works. The seminar will be run as a professional studio and will cover proposal development, scope of work, project pitching, as well as the technical and conceptual aspects of designing and developing interactive works.

We will work with Justin Gitlin (cacheflowe.com) to produce a series of interactive works. We will work as a professional studio and you will learn proposal development, scope of work, project pitching, as well as the technical and conceptual aspects of designing and developing interactive works.

Joel is an artist and designer who uses coding as a tool to produce creative work.
